EXPERIENCE

Sr. Frontend Engineer — Investcloud Inc. Tampa, Fl

APRIL 2021 - OCT 2023

- Developed / Maintained company's flagship applications (Developed key components in companies new CRM offering)
- Deployed sites into production / troubleshooted production issues (Implemented company's first use of Microsofts' Azure OpenId single sign on for client controlled authorization)
- Translated 15+ monthly Figma and Invision mockups from the design team into functional components / webpages.
- Maintained websites developed by myself and legacy sites of colleagues with HTML/CSS, Javascript, Angular and JQuery
- Commented on Jira Tickets with status updates, and feedback for issues

Web Developer — Freelance Tampa, Fl

JANUARY 2019 - PRESENT

- Built custom websites using multiple architectures i.e. core web languages (pure HTML/CSS and Javascript libraries), WordPress and Shopify
- Evaluate client's requests and build solutions(custom or CMS based), based on practicality
- Built a custom website for a client's construction company to allow users to request / view project statuses and company to view all projects

Solar Advisor / Supervisor — Power Home Solar Tampa, Fl

APRIL 2020 - APRIL 2021

- Discussed solar benefits with customers and drew comparisons with power company rates. • Followed-up daily with approximately 300 warm prospects to deepen connections and convert leads.
- Promoted to supervisor in 6 months
